SKILLS

- Programming Languages: JavaScript, TypeScript, Java (Core)
- Frameworks & Libraries: Node.js (NestJS, Express), ReactJS, NextJS
- Database & ORM: MSSQL Server, MySQL, TypeORM, Prisma
- Web Technologies: HTML5, CSS3, SCSS, RESTful API design, WebSockets
- Tools & Others: Git, GitHub, GitHub Actions (CI/CD pipelines), Postman, VS Code
- Foreign Languages: English (TOEIC 730 – effective communication)

WORK EXPERIENCE

Korea New IT Consulting Co., Ltd (Full-time)

Jan, 2025 – Present

Backend Developer

- Developed backend services using TypeScript, ExpressJS, and TypeORM, working with MSSQL stored procedures, raw queries, and complex business logic via RESTful APIs.
- Handled production and sales transactions, ensuring data consistency, validation rules, and correct processing across related ERP modules.
- Designed and optimized ERD models and database schemas to support new business modules in the ERP system.
- Developed and optimized complex stored procedures in MS SQL Server, improving query performance and overall system efficiency.

Korea New IT Consulting Co., Ltd (Part-time)

Apr – Jul, 2024

Intern position

- Developed user interfaces and implemented client-side logic using JavaScript to handle user interactions and data flow between frontend and backend.
- Collaborated with business consultants to analyze workflows and implemented ERP features, enhancements, and logic fixes based on user requirements.

PROJECTS

bofolio

Oct – Dec, 2025

Developer Portfolio Website

- Built full-stack personal blog platform using Next.js 14 (App Router, Server Components)
- Implemented authentication with Clerk, database with Prisma ORM & PostgreSQL (Supabase)
- Designed responsive UI with Tailwind CSS, Shadcn/ui, Radix UI, and Framer Motion
- Developed CMS with CRUD operations, MDX content rendering, and multi-language support
- Integrated file upload, comment moderation, and SEO optimization
- Live Site: nvthinh.site

EDUCATION

Bachelor of Information Technology

2020 – 2025

Danang University of Science and Technology
